Dublin24 | +353 892396308 | vaishnavi.rajput2002@gmail.com | linkedin.com/in/vaishnavi-rajput-73948322a

Summary

Customer focused professional with **26 months of experience** across technical support, data quality, and client facing roles. Proven ability to manage **high volumes of queries** accurately and efficiently in fast paced, SLA driven environments. Skilled in **first call resolution, written and verbal communication**, and handling confidential information in line with data protection standards. Proficient in Jira, Redmine, Git, SVN, and Microsoft Office. Fluent in written and spoken English. **Stamp 1G visa** holder, fully authorised to work full time in Ireland.

Skills

Customer Service & Communication: First call resolution, telephone and webchat support, email handling, active listening, professional client interaction

Accuracy & Attention to Detail: Data validation, structured quality checks, SLA tracking, audit ready documentation

Problem Solving & Troubleshooting: Root cause analysis, incident management, escalation handling, Jira, Redmine

Computer Skills: Microsoft Office Suite (Word, Excel, Outlook), Git, SVN, Windows and Linux, Power BI, SQL

Confidentiality & Compliance: GDPR aligned data handling, secure information management, strict policy adherence

Professional & Interpersonal: Analytical Thinking, Stakeholder Engagement, Cross Functional Collaboration, Time Management, Adaptability

Experience

AI Data Annotator (Remote)

Dec 2025 – Present

Outlier

- Working on **ongoing AI quality projects**, reviewing and evaluating **100+ AI generated outputs daily** against structured client guidelines to ensure accuracy, consistency, and quality standards are met.
- Communicating project feedback clearly in writing, identifying patterns across **multiple concurrent tasks** and resolving quality issues through careful attention to detail and adherence to rubrics.

Technical Demonstrator

Feb 2025 – Jun 2025

National University of Ireland Maynooth

- Served as **first point of contact** for **300+ students per session**, resolving technical queries across Windows and Linux environments within SLA through root cause analysis.
- Collaborated within a **10 person team** to streamline lab support and assignment grading, improving turnaround time and consistency of feedback across **300+ students** per semester.

Release & Application Support

Jun 2022 – Aug 2024

Bombay Stock Exchange (BSE), Mumbai, India

- Managed and triaged **40+ monthly incidents** via Jira and Redmine, coordinating with development and QA teams to resolve issues and maintain **100% SLA compliance** across all client facing services.
- Handled user access requests and system queries for **200+ internal users**, responding accurately and securely in line with data protection and confidentiality policies.
- Supported application deployments across **3 environments** using SVN and Git, performing data validation checks to ensure data integrity ahead of each production release.
- Maintained detailed documentation for release procedures, incident logs, and user records, ensuring **audit readiness** and smooth knowledge transfer across the team.

Education

MSc in Data Science and Analytics | NUI Maynooth | First Class Honours

2024 – 2025

BSc in Information Technology | University of Mumbai | First Class Honours

2019 – 2022

Projects

- NYC Flights Data Analysis** | Analysed 336,000+ flight records to identify delay patterns and airline performance trends using statistical techniques and data visualisation.
- Bayesian Modelling of Ecological Data** | *R*, JAGS, Applied regression and imputation techniques to incomplete ecological datasets with 46 environmental predictors, producing robust statistical insights.
- Doctor Appointment System** | *Database Design*, Built a database driven application for managing patient records and scheduling, placing 1st in an inter college competition.
- Spatial Data Analysis** | *PostGIS, SQL* — Queried geospatial datasets to evaluate service accessibility and spatial patterns across 10,000+ records.

Certifications

- Google IT Support Professional Certificate — Coursera (In Progress)
- Power BI Essential Training — LinkedIn Learning
